Re:- Physicool Rapid Relief, Rapid Recovery.

Dear Pat,

Following my recent knee surgery I was given the opportunity to use the Physicool Recovery system and I can assure you that it accelerated my recovery and brought down the swelling on my knee rapidly.

It is an excellent and easy to use product and gives great relief from pain and swelling post operation. I wish there was a product like this when I was playing Rugby at the top level as it would have been invaluable in getting over injuries that could take weeks to recover from.

I have no hesitation whatsoever in recommending Physicool as a product of the highest quality to people recovering from operations and procedures and to sportsmen and sportswomen everywhere, when recovery time is so essential.

Yours Sincerely,

Michael O'Sullivan
